Subject: 2nd Eastern Ontario Communications (Virtual) Conference – New Date – November 19, 2020

Good afternoon,

First, a huge thank you for the incredible interest and many positive responses received to our 2nd annual conference!

We are writing again to announce that we have had to change the date of our conference, due to a conflict with the revised date of the Ontario East Municipal Conference (OEMC). Our **new conference date is now Thursday, November 19, 2020**. We apologize for any inconvenience and sincerely hope that you will be able to attend on this new date.

As a result, we have also extended the deadline to submit proposals for presentations to August 31, 2020. Please therefore send any proposals to eocommsconf@gmail.com. The organizing committee is already busy working on a very exciting agenda for the conference, including many timely and relevant topics that we have experienced over this past year.

On a final note, the registration cost for this conference is \$25 per person. This will help us cover the cost of the platform being used to virtually host the conference, all while keeping the cost of attendance very affordable – and ensuring that we can maintain the financial sustainability to continue to host this conference for many years to come. Registration information will be sent very soon.

Once again, thank you for your great interest in this conference, and we look forward to hosting you in November!
